Resume - Staff Data & AI Platform Engineer

Vitthal Mirji

Address: Kallenbergstrasse, 70825 Korntal-Muenchingen, Germany
Phone: +49-151-28738427
Email: vitthalmirji@gmail.com
LinkedIn: linkedin.com/in/vitthal10
Website: vitthalmirji.com
Work status: Fully authorised to work in Germany; no sponsorship required
Availability: Two weeks

PROFESSIONAL SUMMARY

- Staff-level engineer: reliable data platforms, production AI, developer platforms, complexity reduction.
- Built schema-contract/SDK systems for 40+ teams / 150+ engineers; incidents -82%, MTTR -60%.
- Operated 5TB+/day platforms at 99.9% SLA; 100M+ daily records with <2h freshness.
- **Current OSS/R&D: datacrate, llm4s, flowforge, DataFusion/Comet/Ballista – GitHub: vim89 & com-vitthalmirji.**

WORK EXPERIENCE

03.2026 - Present **llm4s foundation**, *Senior Software Engineer - Data & Platforms*, Remote from Stuttgart, Germany

- llm4s core contributor and co-maintainer for type-safe LLM agents, RAG, tracing, evals, typed errors, and provider abstractions.
- Built flowforge, toon4s, and datacrate around compile-time data contracts, Databricks/lakehouse patterns, DataFusion/Comet/Ballista, and predictable APIs.

11.2023 - 03.2026 **Walmart Global Tech**, *Staff Software Engineer - Platform Architect (IC5)*, Bangalore, India

- Built compile-time schema-contract platform adopted by 40+ teams / 150+ engineers; invalid schemas failed in CI before production.
- Validated 5TB+/day at 99.9% SLA; reduced incidents 82%, MTTR 60%, and QA sign-off from 3 days to 4 hours.
- Designed Scala/Python SDKs for contracts, monitoring, quality, operations, CI/CD, Databricks/Spark workflows, and lakehouse-ready data products; reduced boilerplate 70%; mentored 8 senior engineers.

05.2021 - 10.2023 *Lead Software Engineer / Tech Lead - Platform & Data Infrastructure (IC4)*

- Led 13-engineer squad delivering sales, inventory, and supply-chain analytics platform: 100M+ daily records with sub-2h freshness.
- Built Kafka supplier pipelines and reusable Scala/Python SDKs adopted by 12 teams; mapped batch/streaming flows to Databricks-style medallion layers: latency 48h to 2h, forecast accuracy +35%, Spark/Dataproc cost -40%.

04.2017 - 05.2021 **Deloitte Consulting**, *Specialist Senior (Senior/Lead Data Platform Engineer)*, Mumbai, India

- Built enterprise data platforms for Aflac, Eli Lilly and Marriott; 350+ table EDW; data quality SLA improved from 85% to 99.5%.
- Migrated 100+ TiB from on-premise Hadoop and RDBMS to AWS S3/Glue with zero data loss; automated reconciliation pipelines and CI/CD validation.
- Led engineering pods of 6-8 engineers; supported hiring, mentoring, and delivery across Fortune 500 client engagements.

TECHNICAL SKILLS

Data engineering: Kafka, Spark, Spark Streaming, Databricks, Delta Lake, Unity Catalog, Delta Live Tables, Lakeflow, Airflow, DataFusion, Comet, Ballista, BigQuery, Dataproc, Pub/Sub, AWS S3/Glue/EMR, ETL/ELT, data modeling, medallion architecture, data quality, governance, schema contracts, lineage, IaC

AI & platform: llm4s, LLM agents, RAG, embeddings, evals, tracing, typed errors, provider abstractions, SDK design, observability, AI-assisted engineering workflows

Programming & lead: Scala (Typelevel / Cats Effect / macros), Python, Java, SQL, Kotlin, Rust, Bash; Docker, Kubernetes, GitHub Actions, Jenkins; Staff+ reviews, 13-engineer squad lead, mentoring, roadmap planning

02.2016 - 04.2017 **Bista Solutions Inc.**, *Senior Software Engineer - Data Analytics*, Mumbai, India

- Built Spark Streaming + Kafka real-time supply-chain telemetry for US automotive clients: forecast accuracy improved 60%, inventory cost reduced 10%.

11.2015 - 02.2016 **Nihilent Technologies**, *Software Engineer - Data Platforms*, Pune, India

- Built ingestion framework for 1,000+ RDBMS tables into Hadoop HDFS, adopted across 50+ programs.

EDUCATION

06.2015 **Bachelor of Engineering - Computer Science (First Class)**
Visvesvaraya Technological University, Belgaum, India

2010 **Diploma - Computer Science (First Class Distinction)**
Bangalore University, India

LANGUAGES

English: C2 - professional fluency

German: A2 - improving actively. Ich verbessere mein Deutsch jeden Tag.

CERTIFICATIONS

02.2021 Google Professional Data Engineer

05.2020 Cloudera Certified Spark & Hadoop Developer

2009 / 2010 Sun Certified Java Developer (Java 5.x and 6.x)

PUBLICATIONS, TALKS & OPEN SOURCE

Publication: *Shift schema drift left* - compile-time data contracts for JVM and Spark. arXiv:2604.16986

Talks: Linux Foundation OSS Summit 2026 (YouTube), EuroRust 2026, Barcelona, Spain; Scala.io Paris 2025, DroidFest 2026, J on the Beach, Scala Days, OAISYS AI Practitioners 2025, Scala India 2025, GDGs / JUGs on Spark, Scala and data architecture

Open source: datacrate (Rust typed data pipelines), llm4s (core contributor, GSoC mentor), flowforge, toon4s - author/contributor; software complexity doctrine; Apache Spark, cask, scalasql, spark-xml (Databricks) - contributor. github.com/vim89

VOLUNTEERING

Tech events: Data Makers Fest International Conference, Porto, Portugal - logistics, setup, attendee support, and community operations; EuroRust 2026, Barcelona, Spain - moderator and volunteer

AWARDS

2024 & 2021 **Walmart Bravo Award** - platform frameworks and data quality tooling

2021 - 2024 **Walmart Wall of Fame** - sustained cross-team engineering impact

2019 **Deloitte Outstanding Performance** - Aflac Fortune 500 engagement
